

The winners of the GL Award for Young Professionals 2010

We would like to thank all participants for submitting their scientific papers for the fourth GL Award for Young Professionals with the topic 'Increasing the energy efficiency of ships'.

As a result of intensive consultation, the jury has come to a unanimous decision, and we are pleased to announce the winners.

- 1st Prize** and with it a prize of 3,000 € for the topic 'Sizing of hybrid propulsion systems', written by Edward Sciberras, Newcastle University
- 2nd Prize** and with it a prize of 2,000 € for the topic 'Entwurf eines Containerschiffes für den Betrieb ohne Ballastwasser-austausch unter Berücksichtigung der Lecksicherheitsvorschriften', written by Katja Hartig, University Rostock
- 3rd Prize** and with it a prize of 1,000 € for the topic 'Parametric modeling and hydrodynamic analysis of twin-skeg vessels', written by Fabian Tillig, Technical University Berlin

The award ceremony for the above-mentioned winners is expected to be held in August 2011 at the 'Maritimer Sommertreff' in Kiel.

We are looking forward to receiving new interesting papers also to this year's contest with the topic 'Increasing the energy efficiency of ships'. See also our flyer under www.gl-group.com/careers.
