

# Assessment Form Welder's Qualification Test

Acc. to the GL-Rules for Welding/ISO 9606/DIN EN 287

## General Data

Manufacturer's welding procedure specification

Reference number (if applicable)

Test group

Name First name

Place of birth Date of birth

Method of identification Kind

Test by order of

Test by order of carried out on

Test piece	Test details	Other information to material, filler metal, shielding gas etc.
Welding process		
Plate / tube		
Joint type		
Material group		
Filler metal type		
Shielding gas		
Auxiliaries		
Test piece thickness		
Pipe outside diameter		
Welding position		
Backing / gouging		

### Valuation of the test piece

to ISO 5817 (steel, nickel, titanium), ISO 10042 (aluminium, copper)

Type of Test	Visual test	not tested	Bend test	not tested
	Radiography	not tested	Fillet weld	a in mm
	Magnetic particle test	not tested	Additional test	not tested
	Penetrate test	not tested	Job knowledge	not tested
	Macro	not tested		
	Fracture test	not tested		
			Signature	

Following additional rules were considered (TRD, AD-codes, PED etc.)

Place/Date Stamp Signature of GL Surveyor
